Objective

Motivated Computer Science Engineering student with interest in software development, AI, and web technologies. Looking for opportunities to enhance technical skills and contribute to innovative projects.

Education

- **Tatyasaheb kore institute of engineering and technology , warananagar**
Bachelor of Technology (B.Tech) in Computer Science and Engineering Expected Graduation: 2028
- **R.C.Kale junior college, chiplun**
Higher Secondary Certificate (HSC) | 2024
- **S.T Fransis Xavier's High school, Matheran**
Secondary School Certificate (SSC) | 2022

Skills

-  C++
-  Python
-  HTML
-  Git/GitHub
-  MySQL

Projects

- **Smart Software System for Sugar Cooperatives**
 - Developed a software system to manage operations in sugar cooperatives.
 - Included worker management, attendance tracking, and material records.
 - Improved efficiency and reduced manual work.
 - Technologies used: Python, MySQL
- **Hostel Management System**
 - Developed a hostel management application for student and room management.
 - Implemented modules like room allocation, fee management, entry/exit tracking, and complaint management.
 - Designed database structure for storing student and hostel records.
 - Improved hostel administration efficiency through automation.
 - Technologies used: MySQL, Kotlin
- **Arduino-Based Anti-Sleep Alarm for Drivers**
 - Built a safety system to detect driver drowsiness and alert them.
 - Used sensors and Arduino for monitoring driver activity.
 - Triggered an alarm when sleep signs were detected.
 - Aimed to reduce road accidents caused by fatigue.
 - Technologies used: Arduino, Sensors, Embedded C

Certifications

- IBM Certification – Databases and SQL for Data Science with Python

Achievements & Awards

- Member of Horizon Committee (College Magazine Committee)

Spoken Languages

- English
- Hindi
- Marathi

Interests

-  Software Development
-  Artificial Intelligence
-  Web Development
-  Problem Solving
